

**LOWERS FEED PH**

- For pathogen control and food safety
- To reduce buffering effects of diet in upper GI tract

**PROMOTES GUT HEALTH AND INTEGRITY**

**MITIGATES PERFORMANCE LOSSES IN COCCIDIOSIS-CHALLENGED BIRDS**

**CHLORIDE-FREE SODIUM SOURCE**

- Reduces excess chloride levels in diet
  - Positive impacts on litter quality
  - Beneficial during heat stress
- Replacement for non-chloride sodium sources in the diet (eg. S-Carb®)
